

**Unit 2020 2021**

**ENVIRONMENT**

**Greenhouse gas emissions<sup>1</sup>**

Total GHG Emissions (Scope 1 + Scope 2)	t of CO2e	13 363	18 481
Direct GHG emissions (Scope 1)	t of CO2e	126	120
Refrigerants	t of CO2e	99,7	90,0
Mobile fuel combustion	t of CO2e	26,5	29,9
Indirect energy-related GHG emissions (Scope 2)	t of CO2e	13 236	18 361
Electricity supply from grid	t of CO2e	5 397,2	9 211,4
Central heating	t of CO2e	7 839,3	9 149,9
Total GHG Emissions (Scope 1 + Scope 2) per revenue	t of CO2e / RUB 1MM	0,92	0,83
Total GHG Emissions (Scope 1 + Scope 2) per selling space	t of CO2e / m <sup>2</sup>	0,09	0,11

**Energy<sup>2</sup>**

Total energy consumption	MWh	43 684	60 498
Energy consumption per revenue	MWh / RUB 1MM	2,99	2,73
Energy consumption per selling space	MWh / m <sup>2</sup>	0,30	0,37
Electricity purchased for consumption	MWh	17 783	30 351
Heat purchased for consumption	MWh	25 900	30 148

**Fuel consumption**

Diesel consumption by transportation	l	7 800	8 769
--------------------------------------	---	-------	-------

**SOCIAL**

### Employees<sup>3</sup>

Total headcount as of year-end	people	5 467	5 607
--------------------------------	--------	-------	-------

### GOVERNANCE

Number of board of directors members	people	5	5
Number of women on the board of directors	people	0	0
Average tenure of board of directors members in years	years	<i>no data</i>	10

### Responsible supply chain

Direct suppliers	number	<i>no data</i>	231
Share of products produced in the factories that passed social audits	% of products	<i>no data</i>	15

<sup>1</sup> Data in the section "Greenhouse gas emissions" includes AO Melon Fashion Group's offices and stores in Russia.

<sup>2</sup> Data in the section "Energy" includes AO Melon Fashion Group's offices and stores in Russia.

<sup>3</sup> Data in the section "Employees" is calculated for the whole group of companies.
